ZWEIBRÜCKEN, Germany, July 21, 2016 – Ingolstadt-based Autodienst Eineder has clearly taken a liking to Terex cranes: After acquiring a Terex® Explorer 5800 crane in April 2015 and seeing how it excels at doing its work, the company decided to order a Terex AC 100/4L crane, confident that it will yield the same type of results. Together with his son and son-in-law, owner Peter Eineder travelled personally to Zweibrücken to pick up his new crane. There, Terex Cranes Sales Representative Philipp Maurer was in charge of the handover.

“As far as we’re concerned, this crane has a lot of good things going for it: It’s on the cutting edge of technology, and its width of only 2.55 meters, combined with its 60-meter boom, means that it can be used for an extremely wide range of applications,” says Peter Eineder when explaining his purchase decision. He adds, “On top of that, we really value the outstanding service provided by Terex Cranes – especially the dependable and excellent support we get from our contact, Philipp Maurer.”

About Autodienst Eineder GmbH

Ingolstadt-based Autodienst Eineder provides a comprehensive line of services ranging from roadside assistance and repairs, through tire service and repair, all the way to heavy haulage and crane services, including rentals. Among other machinery, the company’s fleet includes mobile cranes with lifting capacities of 30 to 220 tonnes.
